EDUCATION

- **SRM Institute of Science and Technology**, India
BTech in Computer Science and Engineering
- **Narayana Junior College**, India
XII PCM(state board)

CGPA: 8.51
Sep 2021 - June 2025
Percentage : 94.4%
2019-2021

WORK EXPERIENCE

- **Web Developer Intern, Edunet Foundation | Virtual**
- Utilized HTML, CSS, and JavaScript to ensure a smooth user experience.
- Troubleshooted and debugged issues, improving website performance by 20%.
- Successfully tackled the task of creating a replica of the Myntra website.

JUNE-JULY, 2023

PROJECTS

- **BookStore App | React.js, Express.js, Node.js, MongoDB, Tailwind CSS | [Github](#)**
 - I developed a full-stack a bookstore website with CRUD operations for books used CORS policy ensuring secure data transfer from backend to frontend.
 - Implemented RESTful APIs and achieved a 20% performance improvement through optimization techniques used Tailwind CSS for better User Interaction and User Experience .
- **Ecommerce Application | MongoDB , React.js, Express.js, Node.js, TypeScript | [Github](#)**
 - Developed and maintained full-stack e-commerce applications using the MERN stack and TypeScript, focusing on type-safe development.
 - Implemented robust user authentication and authorization, including JWT-based cookie authentication and middleware integration, improving security and reducing login times by 30%.
 - Built dynamic interfaces for authenticated users with full CRUD operations for products, orders and cart management.
 - Created an Admin Panel for monitoring users and products, and an orders section to manage workflows effectively
- **Chat-App: Scalable Chat Applicaion | MongoDB , React.js, Express.js, Node.js, Socket.io | [Github](#)**
 - Developed user authentication with middleware and cookie-based authentication, enhancing app privacy and security.
 - Implemented online user status functionality using Socket.io and React Context, enabling real-time visibility of contacts' online/offline status.
 - Integrated real-time messaging with Socket.io, providing instant communication, live updates, and notifications for users.

SKILLS

Technical Skills:

- Languages: C++, JavaScript, TypeScript
- Web Development: React.js, Express.js, Node.js, Tailwind CSS, Daisy UI
- Database: MySQL, MongoDB
- Tools and Technologies: Git, RESTful API, VS Code, Postman, Docker, Github, Vercel

Achievements

- **Solved 100+ problems** on [Leetcode](#), [CodingNinjas](#) and [Codechef](#)
